Beyond Lithium Inc. (Formerly Beyond Minerals Inc.)

Notes to Condensed Interim Financial Statements Three and Nine Months Ended September 30, 2023 (Expressed in Canadian Dollars) (Unaudited)

1. NATURE OF OPERATIONS AND GOING CONCERN

Beyond Lithium Inc. (formerly Beyond Minerals Inc.) (the "Company") was incorporated on October 8, 2019, under the laws of Canada. The Company is primarily engaged in the business of acquiring and exploring mineral properties.

The head office, principal address, and records office of the Company are located at 360 Main Street, Suite 3000, Winnipeg, Manitoba, R3C 4G1.

The common shares of the Company commenced trading on the Canadian Securities Exchange ("CSE") on April 13, 2022 under the symbol "BY" and on the OTCQB Venture Market on September 9, 2022 under the symbol "BYDMF".

On May 15, 2023, the Company changed its name from "Beyond Minerals Inc." to "Beyond Lithium Inc."

Going Concern

In order to carry out future exploration activities, the Company will need to raise additional financing. Although the Company has been successful in raising funds to date, there can be no assurance that adequate funding will be available in the future, or available under terms favorable to the Company.

These unaudited condensed interim financial statements have been prepared on a going concern basis, which assumes continuity of operations and realization of assets and settlement of liabilities in the normal course of business. However, the Company is exploration-focused and is subject to the risks and challenges of companies in the same sector. These risks include, but are not limited to, the challenges of securing adequate capital given exploration, development and operational risks inherent in the mining industry as well as global economic, precious and base metal price volatility; all of which are uncertain under current market conditions. As a result of these risks, there is no assurance that the Company's funding initiatives will continue to be successful and these unaudited condensed interim financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and financial position classifications that would be necessary were the going concern assumption inappropriate. These adjustments could be material.

The Company has incurred losses in previous years, with net loss of \$4,655,894 for the nine months ended September 30, 2023 (nine months ended September 30, 2022 - \$257,743) and has an accumulated deficit of \$5,385,365 as at September 30, 2023 (December 31, 2022 - \$729,471). The continuing operations of the Company are dependent on its ability to continue to raise adequate financing and to commence profitable operations in the future and repay its liabilities arising from normal operations as they come due. These conditions indicate that material uncertainties exist that may cast significant doubt on the Company's ability to continue as a going concern.

The Company's unaudited condensed interim financial statements were authorized for issue by the Board of Directors (the "Board") on November 28, 2023.

2. BASIS OF PRESENTATION

Statement of Compliance

These unaudited condensed interim financial statements have been prepared on a historical cost basis, except for certain financial instruments that have been measured at fair value. These unaudited condensed interim financial statements are presented in Canadian dollars which is the functional currency of the Company. In addition, these unaudited condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IFRS Interpretations Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements.

The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of November 28, 2023, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2022. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2023 could result in restatement of these unaudited condensed interim financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies followed for the preparation of these unaudited condensed interim financial statements are consistent with those described in the December 31, 2022, annual financial statements, except as noted below.

Share appreciation right ("SAR")

Under the Omnibus Equity Incentive Plan (the "Equity Incentive Plan"), employees, consultants, directors and officers of the Company are granted SARs where each SAR entitling the recipient to receive a payment in common shares (or, at the election of the holder and subject to the approval of the plan administrator, a cash amount in respect thereof) equal to the current market price less the grant price of the SAR as determined by the Board at the time of the grant for each SAR. The fair value is measured at the grant date and recognized over the period during which the SARs vest. The fair value of the SARs granted is measured using the Black-Scholes option pricing model, taking into account the terms and conditions upon which the options were granted. At each financial position reporting date, the amount recognized as an expense (share-based compensation) is adjusted to reflect the actual number of SARs that are expected to vest.

Restricted stock unit ("RSU")

Under the Equity Incentive Plan, employees, consultants, directors and officers of the Company are granted RSUs where each RSU has a value equal to one common share. RSUs are measured at fair value on the grant date. The fair value of RSUs are recognized as an expense as share-based compensation over the vesting period with a corresponding increase in equity.

9. STOCK APPRECIATION RIGHTS

In 2023, the Company's Board approved the Equity Incentive Plan, which included SARs. Employees, consultants, directors and officers of the Company are eligible to receive grants of SARs, entitling the recipient to receive a payment in common shares equal to the current market price less the grant price of the SAR as determined by the Board at the time of the grant for each SAR. Notwithstanding the foregoing, the Board may, in its sole discretion, satisfy payment of the entitlement in cash rather than in common shares, or a combination of common shares and cash. The exercise price of the SAR (the "SAR Grant Price") shall be determined by the Board at the time the SAR is granted. In no event shall the SAR Grant Price be lower than the discounted market price permitted by the CSE. SARs shall be granted on such terms as shall be determined by the Board and set out in the award agreement, including any terms pertaining to vesting and settlement.

The following table reflects the continuity of SARs for the periods ended September 30, 2023 and 2022:
